MEMORANDUM FOR THE RECORD

SUBJECT: Timing of US-USSR Exchange of Geographers

25X1A9a

25X1A9a
25X1A9a
1. In a discussion today with [REDACTED] relative to the current status of plans for the exchange of geographers between the US and the USSR, I found that the Soviet group would probably visit the United States during March and April of 1959 and the United States Group would visit the Soviet Union from mid-May to mid-July of 1959. [REDACTED] received this information by letter from [REDACTED] who reported on a conversation and tentative agreement with Gerrassinov relative to the timing of the exchange on which each Academy of Science would attempt to get agreement.

2. This information was secured relative to the problem of continuation of SI Clearance for [REDACTED] who we anticipate will participate in the exchange.
